

Maria Stezhko

Full Stack Web Developer

Mountain View CA | stezhko@gmail.com
mariastezhko.com | [linkedin.com/in/maria-stezhko](https://www.linkedin.com/in/maria-stezhko) | github.com/mariastezhko

I'm a full stack web developer, driven to deliver high-quality, scalable, user-friendly applications. My past experience working as an artist, combined with the formal education in Computer Science, makes me confident in designing creative, detail-oriented solutions, as well as adopting new skills and technologies.

SKILLS

Languages: JavaScript, Python, HTML, CSS, Swift.
Frameworks/Libraries: Django, Angular, Node.js, Express.js, jQuery, Flask, Bootstrap.
Databases: SQL (MySQL, SQLite, PostgreSQL), NoSQL (MongoDB)
Methodology: OOP, MVC, REST
Other: Responsive Design, Ajax, Git/GitHub, Xcode, iOS, Linux, AWS.

PROJECTS

ART PORTFOLIO

URL: <http://artportfolio.mariastezhko.com>

- Implemented CRUD functionality for a list of items within a variety of categories.
- Executed Google OAuth 2.0 authentication.
- Implemented JSON endpoints and responsive design.

Technologies used: Python, Flask, PostgreSQL, Google OAuth 2.0, JavaScript, JSON, Jinja, HTML, CSS

FLYING SAUCER

GitHub: <https://github.com/mariastezhko/flying-saucer>

- Built an Augmented Reality iOS Application featuring a 3D object model of the flying saucer.
- Implemented functionality to control movement of the object in all directions.

Technologies used: iOS, Xcode, ARKit, Swift

NEIGHBORHOOD MAP

URL: <http://neighborhood-map.mariastezhko.com>

- Built a single page application featuring a map of the neighborhood with highlighted locations and various ways to browse the content.
- Utilized Google Maps and Foursquare APIs.

Technologies used: JavaScript, AJAX, HTML, CSS

WORK EXPERIENCE
